

Pencil Lock

Anthony C.

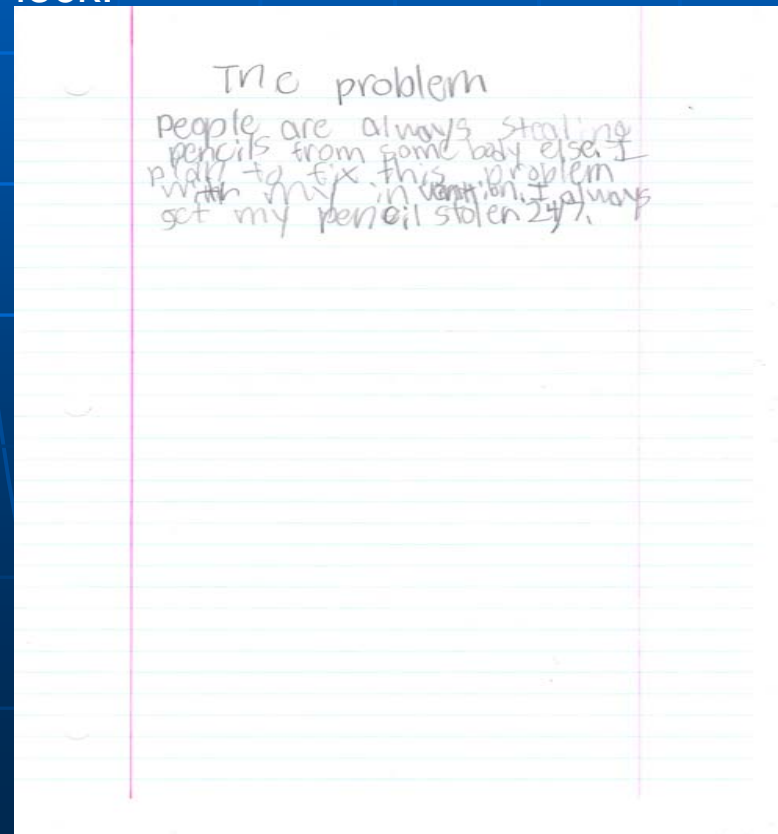

11

Mississippi

Describe the problem you want to solve.

People are always stealing pencils from other people. I plan to fix this problem with my amazing invention. I to get my pencil stolen so I invented the pencil lock.

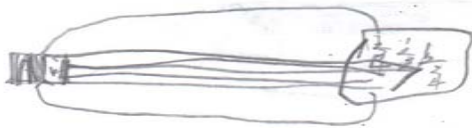

I have already built my prototype. I made my prototype out of play dough and it is working very well

Inventor's Log...

Name: Anthony Caludrovich
Date: 12/19/12 Initials: AC
Time: 8:54 Place: Garage
Witness: Chas C. Decker

Log Entry: I just started my invention. I have started a few days ago. I have all the supplies I need to make the pencil look

Drawing:

A simple line drawing of a pencil, oriented horizontally. The eraser is on the right, and the lead tip is on the left. A small rectangular label is attached to the eraser with a string or tape.

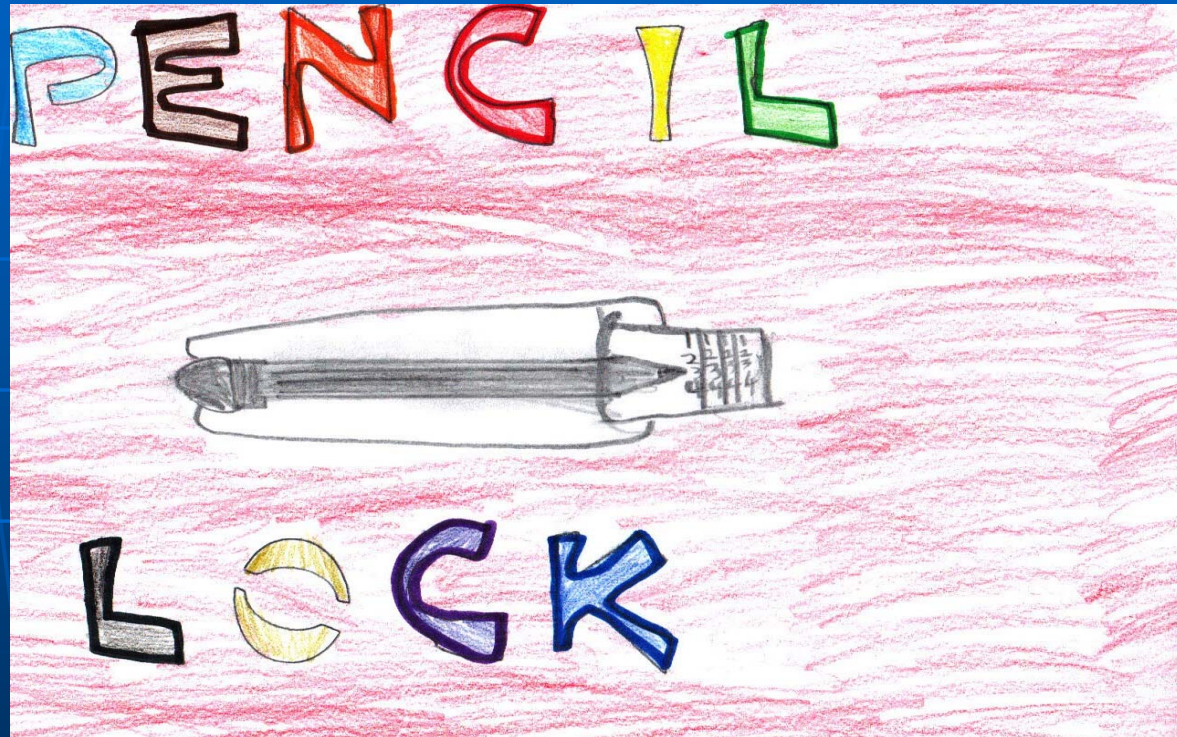

I am the first to try to try to make a pencil lock. This has a lot of ways to solve the problem. It helps people keep their pencil from being stolen from somebody else.

****This step is required.**

Draw pictures and diagrams to show your invention and how it might work.

****This step is required.**

Will they
steal the
pencil
again?

No

No

No

Is it
practical?

No

Yes

yes

Does it
look good?

Yes

Yes

It is called the pencil lock and it is a great idea, and I think people will should it because it solves a very big problem that people deal with everyday. That problem is people stealing other people's pen, pencil, and mechanical pencil.

Do u need ur pencil blocked then use the pencil lock

I have a thing for u that will not make u blue, if u use the pencil lock the crooks will stop

Do u get ur pencil stolen a lot then get the pencil lock. The best thing about it is that they will stop stealing ur pencil and it is only \$3.00.

****This step is required.**

I can improve my prototype out of play dough, so it can be improved by making it out of a different substance like metal or steel
