Describe the problem you want to solve.

When people listen to music. They want to wear comfy headphones so they listen in comfort. Well....they really need something warm if they live up North. They want something warm during winter. So get IMUFFS! Listen to music while being warm and comfy. You can go anywhere cold with IMUFFS!

****This step is required.**

QUESTIONS

How can I make it warm?

How could I improve it?

How will it help?

****This step is required.**

Draw pictures and diagrams to show your invention and how it might work.

****This step is required.**

1. STEPS

First, you get a pair of headphones.

2. You get two fluffy pads

3. Then you hot-glue the fluffy pads to the headphones.

4. You plug the headphones into your I-pod and enjoy.

Is it comfy? Yes

Is it warm? Maybe

Is it a good idea? Yes

How can you improve your prototype?

**I could make it warmer by putting 2 more fluffy pads
on top of the other two.**

Why would people want to buy it?

They want to listen to music ,but also keep warm and comfy. So get imuffs to keep warm and comfy while listening to music. ./
